It was another very pleasant night for running around the roads with people returning very well warmed up, having found that when you live at the foot of a volcano the area around is not all that flat! It was great to see more new faces again tonight and we were most impressed at a 'nearly 4' year old, complete with headlamp, going around 6 controls in under the hour! What will he be doing in another few years!! Next week we are starting from 47 Harlston Rd, Mt Albert – see you there!
